

# Story of the Stars: Modeling the Universe

*Afterschool Universe Program*

**Thursdays after School for Middle Schoolers**

**Beginning August 30 at 3:30 pm**

Fun and Fascinating, Creative and Collaborative

Create models and instruments, "see" the invisible, take real live pictures with a space telescope... and more...

Don't miss this limited middle school opportunity to expand your imagination outside the solar system to the newest discoveries about the universe in a relaxed sociable environment.
