

## **SPI is Recruiting Two New Board Members**

SPI is seeking **two new members** to join our Board of Directors as we continue growing a vibrant community hub where families gather for **play, discovery, and hands-on STEM learning**.

SPI has become a place where **curiosity, creativity, and community life intersect**, bringing families together while strengthening the vitality of our region.

As we look toward the next stage of SPI's growth, we are especially interested in individuals who bring experience in:

- **Fundraising and philanthropic engagement**
- **Donor cultivation and stewardship**
- **Corporate leadership**
- **Corporate partnerships, sponsorships, and community investment**

Our current board includes members with expertise in **law, human resources, finance, and education**; we are looking to complement that experience with leaders who can help expand SPI's partnerships and community support.

SPI board members serve as **skills-based volunteers**, contributing professional insight and serving as trusted advisors to the Executive Director and fellow board members in areas related to their expertise.

Board members are expected to:

- Attend periodic board meetings (3 or 4 per year),
- Serve as ambassadors and champions for SPI in the community,
- Share professional insight and strategic perspective,
- Assist with targeted projects, introductions, or opportunities that advance the organization's mission.

We especially welcome interest from **leaders and emerging executives in regional businesses, as well as professionals experienced in philanthropy or donor engagement**, who are passionate about supporting families, fostering curiosity, and strengthening our community.

Board service is an opportunity to contribute your expertise while helping shape one of the community's most valued family destinations.

Please email [Stephanie@spi-mountvernon.org](mailto:Stephanie@spi-mountvernon.org) to indicate your interest.
